Rabbit-Savvy Vet Anesthesia & Molar Check Checklist

Companion Reference Sheet for: Rabbit Vet Near Me: Confirm Rabbit Experience Before the Visit
Save this PDF to your phone or print a copy for field reference. This sheet does not replace an exam by a veterinarian. If your pet is in distress, call a vet now.

Key Takeaways

- Ask for the name of the veterinarian who will see your rabbit and about their hands on rabbit experience.
- Confirm that the clinic treats rabbits specifically. An exotic animal label can cover many species, and rabbit care is not automatic.
- Ask separately about wellness care, dental services, anesthesia, surgery, and emergency coverage.
- Use the rabbit veterinarian directory to find local candidates, then call to confirm current services and availability.
- Changes in appetite, droppings, breathing, or activity can need prompt veterinary attention.
- Make an after hours plan before your rabbit becomes ill, including a clinic that confirms it can accept rabbits at the time you call.

Search Local Listings, Then Call the Clinic

Care need	What to ask the clinic
Rabbit wellness exam	Does the visit include a full physical examination, diet and housing review, weight check, and dental assessment?
Rabbit dental care	Can the veterinarian assess the cheek teeth, and what imaging or treatment is available if a problem is found?
Spay and neuter	Does the clinician perform rabbit procedures regularly, and what anesthesia and recovery monitoring are provided?
Diagnostics or urgent illness	Can the clinic provide the examination, laboratory testing, radiographs, or other diagnostics your rabbit may need?

Ask About Rabbit Safe Anesthesia and Surgery

Rabbit care estimate	Listed estimate	What it may cover
Veterinary consultation	$75	Consultation or examination fee
Diagnostic testing	$95	Bloodwork, fecal screening, or imaging

Reference Table

Exotic care estimate	Listed estimate
After hours emergency triage exam	$165

Exotic care estimate	Listed estimate
Complete blood panel and biochemistry	$120
Two view digital radiographs	$180
Twenty four hour exotic ICU hospitalization and oxygen	$450

First Visit Checklist

- ☐ ☐ Confirm the name of the veterinarian who will examine your rabbit.
- ☐ ☐ Ask about the clinician’s rabbit caseload and experience with your specific concern.
- ☐ ☐ Verify that the clinic provides the services you need, including diagnostics, dental care, or surgery.
- ☐ ☐ Ask about anesthesia monitoring, pain control, and recovery if a procedure is planned.
- ☐ ☐ Bring your rabbit’s medication list, prior test results, vaccination records, and recent changes in eating or droppings.
- ☐ ☐ Ask for a written estimate and the clinic’s referral plan if your rabbit needs care beyond its capabilities.
- ☐ ☐ Save the phone number and address of an emergency clinic that confirms it treats rabbits.

Bring your rabbit in a secure carrier with a familiar towel or bedding. If you can, note when appetite, droppings, behavior, or symptoms changed, and bring a photo or video of an unusual movement or episode.
